Trend of Revenue Accounts

- Kobe has stable city tax revenue which is around JPY 300 bn every fiscal year
- Total revenue of general account has been around JPY 800 bn per year and the ratio of city bond revenue remains around 10%
- Maintaining real surplus for the past 24 consecutive years; JPY 8.4 bn increase in city tax revenue in FY2022

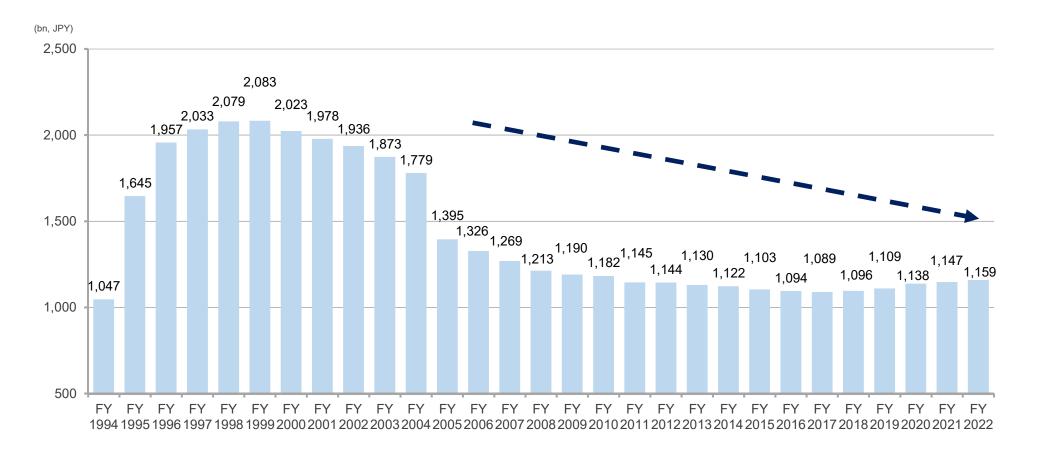

Trend of Expenditure Accounts BE KOBE

- Mandatory expenses account for more than half of all expenditure due to increase in social security related expenses
- Investment expenses have been managed under 10% of the total general account expenditure since its recovery from the Great Hanshin Earthquake

Trend of Outstanding Volume of Debt BEKOBE

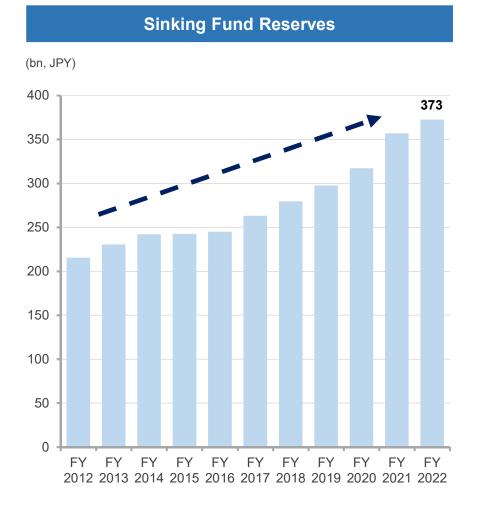

Outstanding volume of debt is on the decrease, which shows sound fiscal status of Kobe

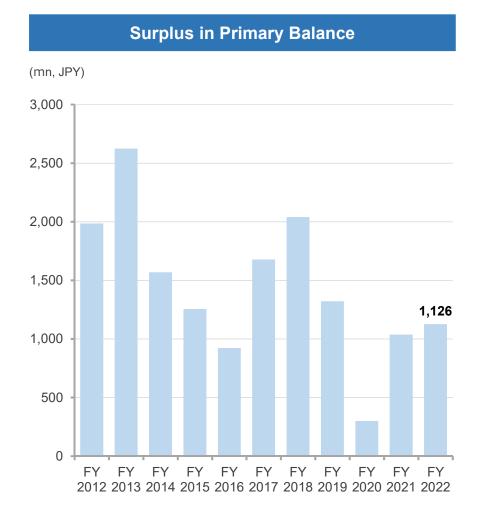

City bond

Liquidity: Status of Sinking Fund

- Kobe has accumulated its sinking fund under the prescribed rule and the reserves reached to around JPY 373 bn
- Kobe has recorded continuous surplus in its primary balance since FY1999

"Kobe SDGs Bond" and "Kobe 2025 Vision" BE KOBE

Kobe SDGs Bond --- Aiming to Achieve SDGs by Realizing "Kobe 2025 Vision"

Use of proceeds of Municipal bonds are regulated by Central Government in Japan

Japanese municipalities are in principle only able to issue bonds for finance purposes as stipulated in Article 5 of the Local Finance Law

Kobe sets concrete goals and KPIs in "Kobe 2025 Vision" but does not limit the UoP of its bonds to specific projects

Concept of "Kobe SDGs Bond"

| | Usual ESG Bonds | Kobe SDGs Bond |
|-----------|---|--|
| ICMA | GBP, SBP, etc. | Not Based |
| UoP | Limited | General Purpose |
| Tenor | Depending on Tenors of Eligible Assets | Depending on Market Conditions |
| Reporting | Projects Base (Eligible Assets) | Project Base (Issuer's Projects) |
| SPO | Provided to Issuance Framework | Provided to Issuers Mid- term Policy Plan |
| Objective | Contribution to the acl | nievement of ESG/SDGs |

- "Kobe SDGs Bond" is the name of Kobe's city bonds. Characteristics and credit risks are the same as those of other city bonds.
- "Kobe 2025 Vision," which is Kobe's mid-term policy plan, sets Kobe's key goals and KPIs to realize SDGs
- R&I, a major rating agency in Japan, provides the SPO for "Kobe 2025 Vision" that the plan contributes to the realization of SDGs
- Kobe does not limit the use of proceeds of "Kobe SDGs Bond" further than the Local Finance Law regulating Japanese municipality's use of proceeds, to ensure Kobe's smooth fiscal and project management

"Kobe SDGs Bond" Framework BE KOBE

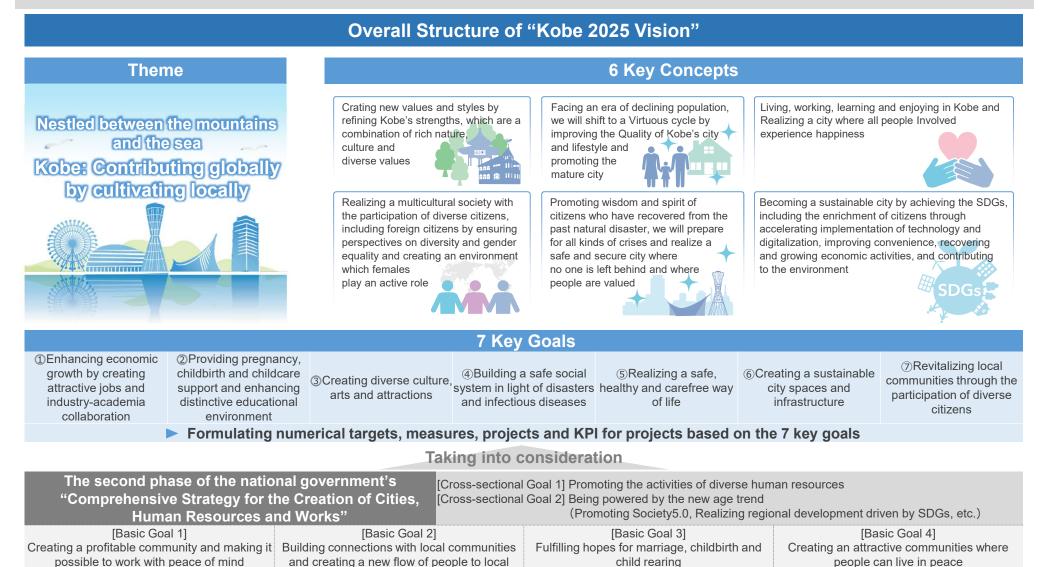

■ The framework of "Kobe SDGs Bond" consists of below four components

| I. Use of Proceeds | Proceeds will be used to the projects that are eligible to be financed by municipal bonds upon Article 5 and other provisions of the Local Finance Law Kobe will not additionally limit the use of proceeds unless the projects are aligned to Article 5 and other provisions of the Local Finance Law |
|--|---|
| II. Process for Project Evaluation and Selection | Japanese Local Governments (JLGs) must consult with the Minister of Internal Affairs and Communications (in the case of prefectures and government designated cities) before its debt issuance, as the use of proceeds are regulated JLGs are allowed to issue municipal bonds based on their budgets and the regulations, such as the Local Finance Law. The budget plan needs to be resolved in Kobe City council before each fiscal year starts Kobe will evaluate the feasibility of the projects and its sustainability during the process of budget planning Kobe will focus its allocation of budget to projects listed in the "Kobe 2025 Vision" With these processes, the appropriateness in project evaluation/selection will be secured in terms of governance as well |
| III. Management of Proceeds | Net proceeds will be managed with clearly specified use of proceeds, such as managing them according to Kobe's accounting rules In general, net proceeds are to be used to finance eligible projects within the same fiscal year |
| IV.Reporting | The level of achievement will be reviewed through: numerical targets, activity of each project, and the KPI (key performance indicator) set for each key goal (pillar of measures) of "Kobe 2025 Vision" every fiscal year Kobe will also verify the impacts and challenges to be improved based on various data such as objective indicators showing the quality of the town and the quality of living and SDGs local indicators "Kobe 2025 Vision" will also be reviewed and flexibly revised in case of a major change in the external environment such as the socio-economic situation External experts will review the degree of achievement and report to the city council for further promotion of "Kobe 2025 Vision" |

"Kobe 2025 Vision"

BE KOBE

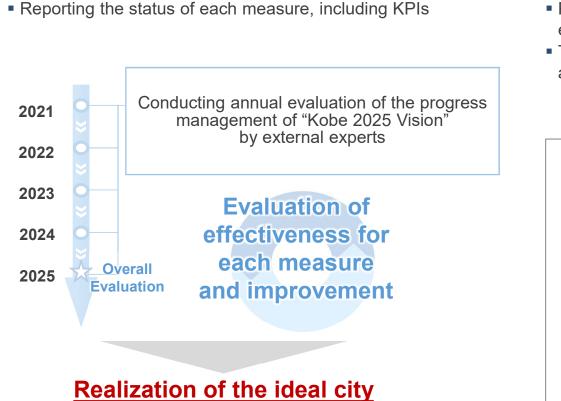

"Kobe 2025 Vision" is a five-year implementation plan outlining the direction of Kobe's urban vision and urban development
 Kobe City will operate business in accordance with "Kobe 2025 Vision" and strive to achieve the 7 key goals set forth in the vision

areas

Progress Management of "Kobe 2025 Vision"

- Kobe City conducts the progress management for the realization of "Kobe 2025 Vision"
- The level of achievement is annually checked through: numerical targets set for each key goal, the status of each measure and the level of achievement of KPIs
- **Kobe City will conduct annual evaluation by external experts and report the results to the City Council**

which Kobe City is aiming to be

Publishing the Progress of "Kobe 2025 Vision" Annually

Way of Publishing the Progress

- Publishing the results of evaluation by external experts in the documents
- The results will be reported to the City Council and will be published on city's website

Fiscal Position of Kobe

BE KOBE

■ All four indicators are performing better than the nationally established standards

| | | | National Standards | | | | | |
|------------------------------------|---|-----------|------------------------|-------------------------|--|--|--|--|
| Four Indicators* | Description | FY2022 | Early Warning Limit | Reconstruction Limit | | | | |
| Real Deficit Ratio | Amount of general account deficit as a proportion of fiscal scale | (Surplus) | 11.25% | 20.0% | | | | |
| Consolidated Real Deficit Ratio | Amount of all account deficits as a proportion of fiscal scale | (Surplus) | 16.25% | 30.0% | | | | |
| Real Debt Payment Ratio | Public debt expenses as a proportion of fiscal scale | 4.8% | 25.0% | 35.0% | | | | |
| Future Burden Ratio | Prefectural bond balance as a proportion of fiscal scale | 60.9% | 400.0% | _ | | | | |

*If the above indicators except the future burden ratio exceed the national standards, the national approval is required to issue bonds

Japanese Local Government Bonds BE KOBE

Japanese local government bonds have a risk weight of zero as a result of powerful national fiscal backing, a tax system designed to prevent failure and other measures as described below

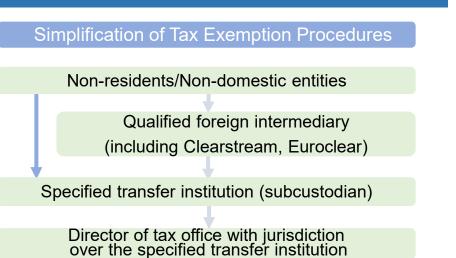

1. Local Issue Tax System

- When determining budgets for each fiscal year, the national government sets forth an estimate of revenues and expenditures for all local governments, and guarantees revenue shortfalls
- As part of this system, the national government provides backing for the redemption of the principal and interest of local government bonds, thereby strengthening the repayment capacity of local government bonds by local governments
- 2. Bond Issuance Approval System as an Early Correction Measure
- Local governments must discuss with the national government before issuing bonds, and receive confirmation that the new bond issuance is reasonable and will not negatively affect the local governments' future ability to repay principal and interest of local government bonds

Outline of Tax Exemption for Non-Residents

Tax Exemption for Non-Residents

Starting in 2008, with the Article 5-2 Act on Special Measures Concerning Taxation (Limited to the provisions related to nonresidents and foreign corporations), the interest gains on LGBs owned by non-resident or foreign corporations which settled by the book-entry system are exempted from withholding tax
