

Lithium-Ion Batteries and Power Banks

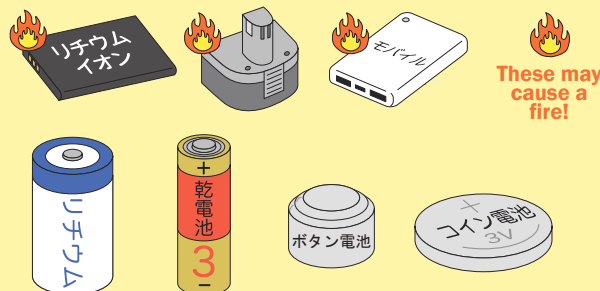

Are **Not Collected** as Non-Burnables at Clean Stations

Collected at ward offices, public facilities, etc.

Battery Collection Box

All types of batteries can be placed

- Lithium-ion batteries
- Power banks • Dry cells*
- Button cell batteries (LR, SR, PR)
- Coin cell batteries (CR, BR)*, etc.

*Dry cells and coin cell batteries can still be disposed of as non-burnables, just as before.

Info on eligible items and collection box locations ▶

Small Rechargeable Batteries Recycling Box

Rechargeable batteries with the above symbols (NiCad, nickel-metal hydride, lithium-ion) and power banks are also collected at home appliance stores, home improvement stores, etc. Please refer to the JBRC (Japan Portable Rechargeable Battery Recycling Center) website for recycling box locations.

Gold and silver are reused as resource

Small Home Appliance Recycling Box

- Portable gaming consoles • Electric shavers
- Handheld fans • Heat-not-burn cigarettes (e-cigarettes)
- Robot vacuums • Mobile phones • Smartphones
- Tablets • Laptops, etc.

- These are collected at ward offices, public facilities, etc.
- Please also use recycling collections available at home appliance stores and designated recyclers under the Small Appliance Recycling Act

Fire accidents have occurred on garbage trucks and at garbage disposal plants

Strong forces, such as extreme pressure and crushing of these items on garbage trucks or at garbage disposal plants, may generate heat or cause a fire. Please ensure safe and proper waste disposal to prevent accidents.

Please check the website for details on how to sort and dispose of waste. ▶▶▶
