

I chose card No. _____

How I Can Personally Contribute to the Kobe of 2035:

I will promote the appeal of local farmers to encourage consumption of locally produced food.

Reasons: *Because I feel that the appeal of Kobe's locally grown fruits and vegetables is not fully appreciated, even by people who live here.*

What needs to be done to achieve this vision?

- *I need to learn more about vegetables and fruits grown in Kobe.*
- *I need to make sure to buy local produce.*
- *I need to educate myself on what kinds of farmers we have here.*
- *I need to visit local farms and talk with the farmers.*
- *I need to introduce local farmers on social media.*
